OBJECTIVE

Enthusiastic Front-End Developer Intern with hands-on experience in HTML5, CSS, JavaScript, and ReactJS. Eager to contribute to a dynamic startup by building clean, high-performing websites. Proficient in Agile environments and code reviews, with a passion for developing robust applications and strong problem-solving skills.

EDUCATION

Mumbai University   Nov 2020 - May 2023
B.E. Computer Engineering
Chhatrapati Shivaji Maharaj Institute of Technology
CGPA: 7.9

Vidyalankar Polytechnic   Aug 2018 - Sept 2020
Diploma in Computer Engineering
CGPA: 80.91%

TECHNICAL SKILLS

- **Languages:** JavaScript
- **Frameworks & Libraries:** ReactJS, Tailwind CSS
- **Tools:** Git, GitHub, Framer Motion, React Router Dom
- **Other:** Responsive Design , HTML and CSS

PROJECTS

Mind Elevate - Github Link , Deployed Link
ReactJS, Tailwind CSS ,Framer Motion,React Tabs

- Developed a one-page website using ReactJS and Tailwind CSS featuring a dark theme and responsive design.
- Incorporated React Icons, React Tabs, and Framer Motion for smooth animations and UI elements, enhancing user experience.
- Key features: appointment booking, service comparison, and pricing details.

Culinary Compass - Github Link , Deployed Link
ReactJS, React Router DOM, Tailwind CSS

- Created a dynamic recipe-finding app using ReactJS, HTML, CSS, and Tailwind CSS.
- Seamless navigation with React Router DOM and enhanced UI with React Icons.
- Designed for optimal responsiveness and modern visual appeal.

Travel Tribe - Github Link , Deployed Link
JavaScript, ReactJS, Tailwind CSS,React Hook form,React Tab,React Router Dom

- Developed a user-friendly marketplace platform using HTML, CSS, JavaScript, React, and Tailwind CSS, enabling property owners to list homes, apartments, and unique spaces like treehouses.
- Implemented a dynamic and responsive design, enhancing the overall user experience across devices.
- Integrated features such as real user reviews and a streamlined booking process, improving guest satisfaction

Github Finder - Github Link , Deployed Link
ReactJS, GitHub API

- Integrated GitHub API to fetch and display user data, including profiles and follower statistics.
- Used Tailwind CSS, HTML, and JavaScript to create a clean, responsive interface, ensuring smooth user interaction.

EXPERIENCE & RESPONSIBILITIES

- Developed responsive UIs using HTML, CSS, JavaScript, ReactJS, and ensured cross-browser compatibility.
- Collaborated with designers, maintained Git version control, and resolved issues.
- Adapted to evolving technologies and trends.

CERTIFICATIONS

- **Data Structure Algorithm Certification**   **Sept 2023 - Feb 2024**
- **JavaScript ReactJS Bootcamp**   **April 2024 - June 2024**

LEADERSHIP ROLES

Treasurer, C.E.S.A   **Sept 2022 - Apr 2023**
Managed expenses for technical activities and spearheaded coding events, fostering a culture of learning and collaboration.
